02 Reinforced Safety

Anti-Panic Opening System

No need to operate the door lock when leaving the house hastily. Simply turn the handle once and the door will open.

Specially Designed Lock System

A solid lock device that prevents the door from sagging or bending.

Fire Detection Sensor

When the indoor temperature exceeds a certain limit, an alarm sounds and the door automatically opens.

Electro Static Discharge(ESD) Prevention

Circuit technology that can withstand high-voltage electric shocks offers enhanced stability.

Emergency Battery Terminal

A 9V battery can be used to operate the door lock when the internal battery has run down.

Double-Locking

add security by preventing the door from being opened from outside at night or at times when extra security is needed.

03 Specifications

Section	SHS-5020/SHS-5010
Key Type	SHS-5020 : RF Card(13.56MHz RF chip/A Type) & PIN SHS-5010 : ID Touch key(Code Hopping) & PIN
User Capacity (Maximum)	SHS-5020 : 20 Card Keys / 1 Number combination SHS-5010 : 20 Touch Keys / 1 Number combination
Number combination	4-12 Digits number combination
Applicable door depth	40-60(mm)
Material	Zn, Al, ABS plastic
Humidity	20% ~ 80%
Power	DC 6V (Alkaline AA Battery 8pcs)
Battery lifetime	about 10months (ten times per day)
Package size	297 × 366 × 120mm (W × H × D)
