Keyless & Safe
Leave your home to the care of Samsung

[SHP-DS510]
### User-friendly Accessibility
- **User Access Code**
- **Key Tag**
- **Mechanical Override Keys**

### Powerful Security
#### Privacy Mode
Rejecting every trial to open the door for protection of privacy

#### Intrusion Detection
Through the magnetic detection sensor, it automatically alarms in the event of intrusion

#### Random Security Code
For hiding frequently pushed number, it always shows random number before you enter PIN code

### Convenience
#### Automatic Locking
Door lock will be locked automatically when the door is closed

#### Keypad Volume Control
Volume adjustable (3 levels including mute)

#### Low Battery Warning Alarm
A "beep" sound during door access will alert you to replace batteries

#### Voice Guidance
Notify the lock status with audible message

### Design
- **SHP-DS510**
- **Inner Body**

### Structure
- **Touch Screen**
- **Card Reader**
- **Emergency Cylinder**
- **Magnetic Sensor**
- **Deadbolt**
